Sir:

In response to the Office Action mailed January 28, 2002, please amend the above-identified application as follows:

In The Claims:

Please amend Claim 1 as follows:

1. A shared memory comprising:

a plurality of true multi-port memories having N independent ports that allow internal concurrent accesses of the memory for all N port, wherein each memory has at least one port with a copybus-function, and at least one port accessible from user side; and

at least one copybus connected to each of said at least one ports having the copybus-function;

wherein said shared memory is adapted to copy contents of one of said multi-port memories, which has been changed by a writing operation from said user side, to other multi-port memories through said at least one copybus.
